RE: PERMANENT SOLUTION FOR THE SAN JACINTO RIVER WASTE PITS

Dear Mr. Miller,

Please make an immediate, permanent decision that protects the citizens of East Harris County from further pollutants in and near the San Jacinto River.

Citing the Army Corps of Engineers study, I support the most rapid and permanent solution for the San Jacinto River Waste Pits: a permanent armored enclosure. The risk is too high and our health is too important to delay this any longer!

Sincerely,

(b) (6)
